

Samsung Mobile Firmware Updates

Every week Samsung updates plenty of devices. Starting this year, SamMobile gives you the opportunity to follow every update from every country worldwide.

We will update our readers weekly with info on which device Samsung updated and in which country/region.

For those who would like to get these updates daily, kindly make sure to follow @SamKiesUpdates on Twitter.

Samsung updates devices by using Samsung KIES or OTA (over the air). Of course, all of these firmware are available for download from SamMobile's firmware page.

Enjoy!
